TAMPA - Progressive American Insurance Company signed a 65,522sf expansion at Interchange Center, a 70-acre, mixed-use business park along the I-75 corridor. The company now leases 130,522sf - the entire first building completed at the project.

The announcement was made by Jack Hoskins, vice president of CB Richard Ellis, who handles the projects leasing for joint venture partners Triad Investors Inc. and Alex Brown Realty Inc. Progressive was represented by brokers with Allegro Realty Advisors in Cleveland and Trammell Crow Co. in Tampa.

In January Progressive opened a claims adjusters training center at Interchange Center. The 65,000sf job training facility allows the company to train 3,500 adjusters from the eastern United States yearly. The new 65,522sf expansion space will house a claims call center.

When complete, Interchange Center will consist of five buildings totaling approximately 850,000sf of class A flex space. The first building was completed in early 2002. Construction on a second 70,000sf to 100,000sf office building is scheduled to begin this summer.
